## **SCREENCANCER NAMES GRO KIELLAND AND DR. OVE LIND TO BOARD OF DIRECTORS**

**October 15th, 2008** – ScreenCancer AS today announced that Gro Kielland, non-executive Chairman of the Board for BP Norge, and Dr. Ove Lind, doctor and medical advisor to the insurance industry, have been elected to serve on its Board of Directors and join with immediate effect.

“We are very fortunate that Gro has agreed to serve on ScreenCancer’s board,” said Christian Horn, CEO of ScreenCancer AS. “Gro brings extensive business experience to the board and she will be instrumental in helping ScreenCancer meet the cancer screening needs of major employers throughout Europe,” Horn states. “Ove, who has extensive experience both in the private medical services field and the medical insurance industry, will be another valuable addition to our Board.”

Mrs. Kielland became non-executive Chairman of the Board for BP Norge in October, 2008, after more than 3 years as Managing Director for BP Norge. BP Norge has been an operator on the Norwegian Continental Shelf for 30 years and had 2 significant Development Projects approved during Mrs. Kielland’s time as Managing Director. BP Norge has revenue in excess of NOK 5.5 billion. Prior to serving as Managing Director, Mrs. Kielland spent 16 years with BP in Norway and in the UK in a variety of management and technical positions. She has a strong background within Health, Safety and Environment.” I look forward to helping ScreenCancer bring their critically important services to employers throughout Europe.”

Dr. Ove Lind was the founder of Bergen Medical Senter which he managed until it was sold to Volvat (Capio) in 1998. Dr. Lind has been a medical advisor to Vesta Insurance for a period of 8 years. He has been chairman and member of the board in NorDiag ASA. " I am pleased to join the Board of ScreenCancer." Dr. Lind stated. “To make the screening program available for national health service and the public will be the main task. Cancer screening is essential to preventing needless deaths but lags in both Norway and the rest of Europe. ScreenCancer has developed an extraordinary approach to help solve this problem using the private sector to augment existing government initiatives.”

### **About ScreenCancer, AS**

ScreenCancer AS provides cancer screening management services to employers and individuals. ScreenCancer offers a private alternative where little or no public cancer screening program exists. With a panel of the leading CE marked screening tests for several major cancers, and clinical follow-up by experts in the field, ScreenCancer provides a method for employers and individuals to reduce the risk and negative effects of cancer. For more information, please visit the company’s web site at [www.screencancer.com](http://www.screencancer.com).
