

ScreenCancer

Deletion of your data

This form will be used by you who wish to delete the data that ScreenCancer has stored about you, your scanned moles/lesions and your health situation.

Your registered health information in ScreenCancer involves information about your personal details and sample response analysis to provide the service to you. ScreenCancer stores demographic data and personal data. This is collected through the service we have provided to you in a secure manner and in accordance with the regulations.

Pursuant to the new rules GDPR – The General Data Protection Regulation, the Privacy policy of May 2018, you can request to obtain a printout of your information or to have your data deleted. If you wish to opt out of registering with us, all information relating to you will be deleted.

Be aware that when your data is deleted we are not able to get them back again, and it will not be possible for us to give you any feedback based on the data.

I want to delete me and my data from the register at ScreenCancer.

Please complete this and send this to either post@screencancer.com or the ScreenCancer premises:

Innovation Centre,
Chatham,
Kent,

ME5 9FD
